

MARKET GOES STALE AND SMALL TRADING IS THE TENOR OF DAY

Total Sales of But Slightly Over
Five Hundred Thousand
Shares; Coppers and War
Shares Fail to Respond.

NEW YORK, Nov. 19.—The market has gone stale. It is the only explanation given for the inertia which overtook trading. Total sales were but 582,000 shares, the smallest amount of any full session in two months. Price changes at the opening were more than usual, although the railways were in fair demand at moderate gains. Other issues denoted heaviness in war shares and coppers as well as in United States Steel being under pressure. A temporary improvement was noted at midday, mainly as a result of a spirited rise in General Motors, which rose 1 point to 45, a new record, while Texas Company gained 1/2 to 19 1/2, to the accompaniment of an other advance in the price of its product.

In the afternoon quoted values fell gradually, the railways that yielded all advantages, while specialties and coppers receded to levels under yesterday's close. There were no sales at Bethlehem Steel until almost the end, when small lots changed hands at between \$77 1/2 and \$85, closing at the latter price, a net gain of one point. Studebaker and Baldwin locomotives were among the other weak stocks. Bonds were firm. Total sales for value \$1,038,000.

(By L. J. Givens)

BOSTON, Nov. 19.—The coppers are slowly rising at their new level preparatory to going much higher. East Butte was favorite closing at new high with good buying. I look for it to sell at 29 or 30 before the first of the year. Range and Mohawk are being held down and accumulated. Buy the coppers and put them away for 20 points profits.

NORTH DAKOTA HAS 'APPRECIATION WEEK'

Edg. Richter.

North Dakota is spending this
week in an effort to appreciate in-
dustry. "Appreciation Week,"
as it is styled under a proclamation
by Governor Hanna, is the creation
of the North Dakota Press Associa-

SIGNALS OF DISTRESS

Bisbee People Should Know How to
Read and Heed Them.

Disordered kidneys give many sig-
nals of distress.

The secretions may be dark, con-
tain sediment.

Passages are sometimes frequent,
scanty painful.

Backache is often present day and
night.

Headaches and dizzy spells may oc-
cur.

Weakened kidneys should receive
quick help.

Don't delay! Use a special kidney
remedy.

Donn's Kidney Pills are for weak
kidneys, backache and urinary dis-
orders.

Bisbee evidence proves their worth.

James Day, School Hill, Bisbee,
says: "I suffered from backache,
headache and bladder trouble. My
ankles were swollen and I was in bad
shape when I began taking Donn's
Kidney Pills. After using several boxes,
the backache left, the swelling
went down and I felt better all over."

While all the other nations of the
world are armed to the teeth, and
are still arming and fighting for the
mastery of the world, it is the ex-
treme of imbecility for us not to arm

against any other country in the
world and "an army big enough to
save the country from the horrors of
defeat and humiliation, even should
our navy be destroyed."

"Our little poorly equipped army
would not be able to offer resistance
enough to make a ripple in the line
of the enemy's advance," Mr. Maxim
said. "Our army would make just
one good day's killing."

"Suppose the enemy should land at
Boston or New York or at any of the
ports between. Nothing under heav-
en could do would prevent the in-
vaders from capturing the entire
country between the Alleghenies and
the sea with two weeks' time." Mr. Max-
im's supposition was based on a
first-class European power at the con-
clusion of the present conflict.

"Any one of the great warring na-
tions," he said, "would have
available several million vari-
ous veterans for a trial at arms with
us, and should that foreign nation
have a navy far superior to our own,
and consequently could not be op-
posed by our navy. Hence that nation
would be able to land upon our shores
legions of trained fighters, equipped
with all the paraphernalia and engi-
neers of war as fast as they could be
brought overseas."

A quarter of a million men, Mr. Max-
im said, could be landed within a
month and reinforcements of that
number brought over every thirty
days thereafter, if needed. After they
had captured that area, the inventor
continued, for America, "there would
be but one way out:

"We should have to ransom our-
selves with gold and the enemy would
throw his sword into the scales as
did Brennus to make good weight.
Our captors would take possession
of our homes and of our women, for
to every household would be de-
finitely a certain number of officers or pri-
vates, to be fed and entertained. You
would no longer be masters of your
own households, but the officers in
charge would be masters of ceremony."

"While all the other nations of the
world are armed to the teeth, and
are still arming and fighting for the
mastery of the world, it is the ex-
treme of imbecility for us not to arm

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With
Theodor's Black-Draught.

McDuff, Va.—"I suffered for several
years," says Mrs. J. B. Whitaker, of
this place, "with sick headache, and
stomach trouble."

Ten years ago a friend told me to try
Theodor's Black-Draught, which I did,
and I found it to be the best family medi-
cine for young and old.

I keep Black-Draught on hand all the
time now, and when my children feel a
little bad, they ask me for a dose, and it
does them more good than any medicine
they ever tried.

We never have a long spell of sick-
ness in our family, since we commenced
using Black-Draught."

Theodor's Black-Draught is purely
vegetable, and has been found to regu-
late weak stomachs, aid digestion, re-
lieve indigestion, colic, wind, nausea,
headache, sick stomach, and similar
symptoms.

It has been in constant use for more
than 70 years, and has benefited more
than a million people.

also. We are forced to decide whether
we will kill our enemies in self-
defense or allow our enemies to kill us.

"If this country should be invaded
and we should send our young men to
the front without adequate prepara-
tion, it would be merely to sacrifice
them in a shambles of slaughter. We
do not want to do this thing. It is
your duty—it is the duty of all of us
—to use our brains, our muscles, our
pens and our money to the full to de-
feat the propaganda of pernicious pa-
cification."

"We are the richest country in the
world and we can very well afford na-
tional insurance; and we must insure
a time of peace. Look at England,
France, Russia. Think of the vast
burden the taxpayers of those coun-
tries will have to bear in future, and
how much greater that burden will be
than it would have been had those
countries been as well prepared as
was Germany."

"The chief lesson of the present
war is that we should prepare against
war. From every sense of obligation,
from every sense of economics; from
every sense of duty and religion, we
should get ready—and lose no time
about it."
